

To the Parents:

The Emergency Declaration for Coronavirus Infection (COVID-19) was extended until May 31, 2020.

For the Prefectural schools, we decided to close schools till May 31 to protect health and life of kids and citizens. There is no designated school attendance day. Each school may set some attendance opportunities for learning instruction and consulting. For the kids in the special schools, please consult the teachers how to spend daytime.

Kids are expected to study at home doing the learning tasks from the school.

Please measure kids' temperature every day. If you are worried, please consult your teachers. Schools and the Board of Education will continue to work hard for kids' learning. Thank you for your understanding and cooperation.

May 5, 2020
